

Report Intro

The Musical Week is an international company that works on setting up programs and concerts throughout the world. This time the company has to set up concerts for one week in Toronto for the band Five Seconds of Summer and Twenty-One Pilots. The company must arrange for a hotel for these band members to stay, and shopping mall complexes for them. So, the company's purpose is to make a list of landscapes in Toronto, including nearby restaurants, cafes, and concert halls. Maps must also be provided as it is a complimentary service from the company.
